You cannot protect, what you cannot see...

- Ineffective and laborious security metrics program due to -

Point in time
data

Complex data
structures

Manual data
correlation

Multiple data
sources and tools

Delayed defect
prioritization, remediation

Complex IT team structure –
multiple stakeholders

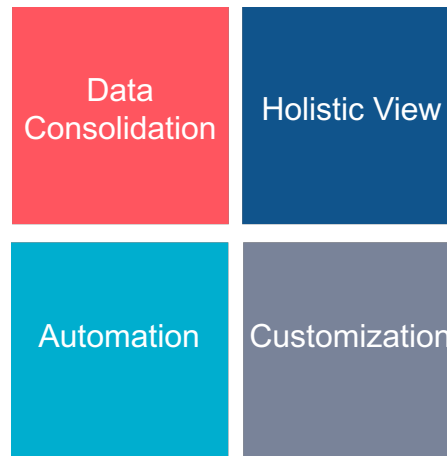

Budget constraints

If you want a thing done well, do-it-yourself...

- InfoSec360 - a metrics dashboard that truly work for us

- Secure APIs for data extraction from multiple tools & near real-time data
- Power BI for dashboarding and Azure for data management
- MS SQL, DML & DAX queries, ETL pipelines for automated dashboards with minimal manual intervention

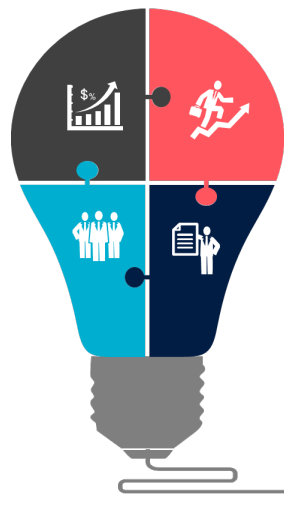

- The platform correlates data points from multiple domains - providing a holistic view of security posture
- Dashboards structured to showcase defense-in-depth view with Role-Based-Access to view relevant information tailored to specific needs
- Metrics 'use-cases' designed for us, by us

Proof of the pudding is in the eating...

- Immediate benefits realized through InfoSec360

Visibility to privilege access governance

- 50% domain controllers not governed through PAM tool
- 27% PAM groups with excess privileges

Visibility to alert / incident lifecycle management

- Identified process gaps which led to reduction in open alerts/ incidents by 60%

Visibility to cloud misconfigurations

- Facilitated timely remediations
- Reduced high / medium severity SLA breach from 72% to 38%

Visibility to service accounts

- 66% unused serviced accounts identified
- 27% service accounts' password was set to 'never-expire'

InfoSec360 – A Big Leap In InfoSec Program Governance

Empowering Security: InfoSec360 revolutionizes cyber protection with dynamic, real-time visibility into security configurations for proactive risk management and strengthening governance

Highlights

- Unleash the Power of Data: Drive Decision-Making with Dynamic and Evolving Insights**
- Elevate Insights: Unleash the Future of Analytics with Interactive Precision, Empowered by the Prowess of AI**
- Elevate Excellence: Cultivate Seamless Synergy and Boost Team Collaboration to Ignite Success**
- Anticipate, Decide, Succeed: Transforming the Future with Precision through Predictive Decision-Making**

Product Journey

- Voice of Customer & Solution Conceptualization** (2023 - Q3)
- Innovative Solution Designing & Development** (2023 - Q3)
- Solutions Deployment & Initial Rollout** (2023 - Q4)
- Integrations & Data Insights** (2024 - Q1)
- Introduction of Advanced Features** (2024 - Q2)
